Community Health Centers

- Community Health Centers have a Pharmacy Services Program (PSP) to provide reduced cost medications for patients of member community health centers. Through an agreement with Smith's Food and Drug, community health center patients receive prescriptions from a Smith's Pharmacy in the neighborhood of the health center.
- The PSP program is made possible under a federal law (Veteran's Health Care Act of 1992) that requires drug manufacturers to provide pharmaceutical products at reduced prices to patients of Federally Qualified Centers and other eligible entities.
